

PHASING OUT: LEATHER - BUFFALO HIDE GOAT GRAIN - WALNUT

Code - BG008

Details

Vegetable tanned Buffalo Calfskin embossed with a Moroccan Goatskin grain, hand finished with a cellulose based lacquer to protect against direct sunlight and light spillages.

This is natural leather with the unique surface characteristics of the animal hide remaining visible. As such, a degree of natural marks and shade variation should be expected, making every hide unique, the colouration of each will vary as each hide reacts differently to the vegetable dye.

This leather has passed the Cigarette FR test BS 5852: Part 1 1979.

Dimensions

Average hide size-19sqft

Usable area-100x100cm

Delivery

Carriage charges can be quoted upon confirmation of the delivery address.

Lead Time

Please check stock: Lead time is 5 weeks if in stock or a maximum of 14 weeks if hides need to be produced to order.

If you are purchasing the leather for application on a Soane design, please note that we require 8 weeks from receipt of leather into Soane's warehouse prior to order completion date.

Lead time will start from receipt of deposit.
